

Advanced tools, technology and talent to ensure matters are secure, accurate and defensible from inception to completion

## FORENSIC ANALYSIS SERVICES ACUMEN

Celerity Discovery's Preservation, Collection and Digital Forensic Analysis Services Celerity's Preservation and Collection services help clients identify, preserve and collect data in a defensible manner to support matters across multiple disciplines. From collection to courtroom, Celerity Discovery forensic experts leverage the most advanced tools and technologies to ensure projects are executed securely, efficiently and on time.

## PRESERVATION

Celerity Discovery's preservations and collections team collaborates with clients to develop, implement and manage strategies for legal holds, in-place preservation, data mapping and custodian surveys / interviews to streamline and mitigation potential spoliation risks.

## COLLECTION

Whether matters require forensic images or logical / targeted collections, Celerity Discovery provides onsite and remote services to collect computers, mobile devices and cloud or social data, while maintaining defensible chain of custody and documentation practices. Celerity Discovery's collection experts are skilled in capturing structured and semi-structured data from SAP, financial systems, operations databases, data warehouses and other custom client systems.

## ADVANCED TOOLS AND TECHNOLOGIES

Celerity Discovery leverages multiple advanced forensics technologies to optimize matters including; OpenText EnCase, Cellebrite Inspector (Macquisition), UFED, Premium and EndPoint Inspector, Downstream RemoteStream, Oxygen, Magnet Axiom and Page Vault.

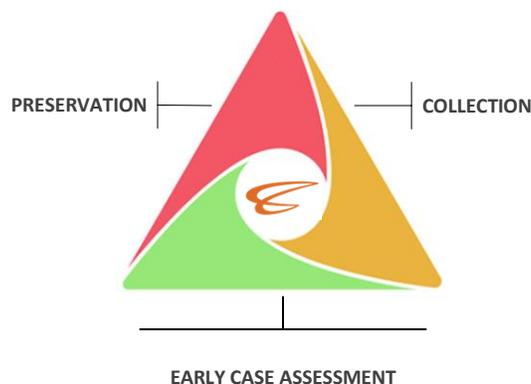

opentext™ | EnCase™  

## EARLY CASE ASSESSMENT (ECA) FOR MOBILE DATA

Complementing core *Relativity* and *Everlaw* eDiscovery platforms, Celerity Discovery utilizes *DownStream's StroomView* ECA platform, providing clients with enhanced accessibility, accuracy and efficiency when working with mobile and modern communications data such as Instant Messaging, Slack and Teams.

- Improved de-duplication over other platforms
- View 3rd party conversation threads in context
- Simplify thread navigation to review quicker
- Enable Boolean searches across entire threads
- Reduce costs by loading required attachments
- Enhanced graphics to interpret patterns
- Export results in RSMF or DAT formats for review

## ABOUT CELERITY DISCOVERY

A fully-owned subsidiary of parent company Celerity, Celerity Discovery provides advanced eDiscovery, data analysis, expert witness and incident response services to law firms, corporations and government agencies seeking to optimize matter results.
